11Lemon - Pure CBG Crystalline Isolate

CBG: 99.5% THC: 0.13%

CBG (Cannabigerol) is a non-psychoactive cannabinoid often referred to as the “mother cannabinoid,” as it is a precursor to cannabinoids such as CBD, CBN, CBC and THC. Similar to CBD, CBG interacts with the endocannabinoid system and may help balance the effects of THC, while also binding directly to CB1 and CB2 receptors. Eleven Lemon’s Crystalline CBG is a virtually odorless and flavorless dry crystal powder containing approximately 999 mg of CBG, designed to be used on its own or combined with other cannabis products for a smoother, more relaxed experience. It can be consumed in concentrates, flower, food or beverages, with low doses of approximately 5–10 mg recommended to start.
